About me

B.Sc. in Computer and Automation Engineering, with experience developing original projects.

Skills

- LaTeX
- Microsoft Office
- Programming languages:
 - C++
 - Java
 - JavaScript
 - Python
 - MATLAB
- Framework:
 - React
 - Node.js
 - ToolBox 5G
- Data management:
 - SQL
 - MongoDB

Language Skills

- **Italian:** Mother tongue
- **English**
 - Listening: B1
 - Reading: B1
 - Spoken production: B1
 - Spoken interaction: B1
 - Writing: B1

Education & Training

B.Sc. graduate in Computer and Automation Engineering

01/09/2021 – 22/07/2026

Polytechnic of Bari | Bari

Final grade: 88 | **Level in EQF:** 6 | **Thesis:** Performance Analysis of Non-Terrestrial Network Architectures Using System-Level Communication Models

Industrial Technical Diploma in Computer Science and Telecommunications

01/09/2016 – 19/06/2021

I.I.S.S "E. Majorana" | Martina Franca (TA)

Final grade: 100 | **Level in EQF:** 4

Projects

Chess Trainer

02/08/2026 – 04/09/2026

Web application for chess training, entirely client-side: every move is evaluated by Stockfish 18 Lite via a Web Worker and classified in real time, built with vanilla JavaScript

<https://wdaav.github.io/projects/chestrainer/>

Link-To-System LEO

01/05/2026 – 22/07/2026

Thesis work on link-level simulations between LEO satellites and terrestrial UEs using Link-to-System abstraction in MATLAB 5G Toolbox environment.

Movie Matcher

01/08/2024 – 01/10/2024

Single Page Application for desktop and mobile devices dedicated to collecting films, with the possibility of sharing gaming activities among users. Developed in JavaScript (frontend: React, backend: Node), MongoDB for data management.

<https://wdaav.github.io/projects/moviematcher/>

See Beyond

15/11/2023 – 30/12/2023

Single Page Application for mobile devices with real-time support for assisting visually impaired people. Developed in ReactJS (frontend) and Python (backend), Firebase for hosting e data management.

<https://wdaav.github.io/projects/seebeyond/>

Smart Medical Exam

21/04/2021 – 29/05/2021

Desktop/mobile application for automating the registration and sharing of medical reports. Developed in Python (desktop application) and App Inventor (mobile application), relational database (SQL) for data management.

<https://wdaav.github.io/projects/sme/>

Certifications

MATLAB Onramp

18/11/2022

MathWorks
